

## T Grid Suspension System

The Main runner acts as a backbone and supports the full system, as both of the Cross T elements (120 & 60) are connected and locked securely into the Main runner. The outer perimeter wall angle maintains the frame and ceiling level.

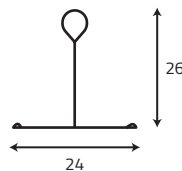

Item	Length	Width	Height
Main Runner	360cm	24mm	38mm
Cross T 120	120cm	24mm	26mm
Cross T 60	60cm	24mm	26mm
Wall Angle	300cm	24mm	24mm

Thickness	Main Tee 0.3mm/Cross Tee 0.28
Galvanised coating mass	PPGI 0.25
International Standards	EN-10346/EN-10143/ASTM1654

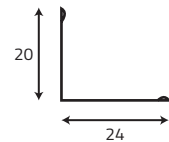

Surface finish: PPGI Cap (ASTM A653M - ASTM 755) Smooth finish
